

TP878.1SS.0

Contact temperature probe for solar panels

TECHNICAL SPECIFICATIONS

Sensor	4-wire Pt100
Measuring range	-40...+85 °C
Accuracy	1/3 DIN
Response time ($\tau_{0.63}$)	60 s
Use	Contact measurements
Operating temperature	-40...+85 °C
Dimensions	Probe head: $\varnothing 30$ mm x H = 7.5 mm Cable: $\varnothing 4$ mm x L = 5 m
Materials	Probe head: Anodized aluminium alloy Cable: PVC (black colour)
Cable termination	Free wires
